PROFILE

Certified TCS Ignite Graduate with strong proficiency in Python, Java, SQL, JavaScript, and React.js, specializing in backend development and AI/ML applications. Experienced in building scalable, data-driven, full-stack solutions within Agile/Scrum environments. Proven ability to collaborate effectively, solve complex technical problems, and contribute to high-impact software projects. Actively seeking opportunities to apply technical expertise and innovation in real-world software development roles.

PROFESSIONAL EXPERIENCE

TCS IGNITE GRADUATE TRAINEE

Tata Consultancy Services

January 2025 - May 2021

- Trained in core technologies including Python, Java, Spring Boot, SQL, Django, JavaScript, React.js, AI/ML, Selenium, and Git, with a focus on backend development, full-stack applications, and data-driven solutions.
- Applied Agile methodology (Scrum) in collaborative, hands-on lab projects to simulate real-world development environments.
- Demonstrated strong problem-solving and leadership skills by mentoring peers, leading code reviews, and resolving complex technical challenges.
- Pursuing project allocation in backend development and data science while enhancing skills through TCS modules and hands-on labs.
